**Do you love steak dinners but hate cramps, bloating, gout, indigestion and gaining weight? Naka's Complete Plant Enzymes can help!**

As we age, our body is unable to produce sufficient enzymes necessary for the digestion of a wide variety of foods. Naka's Complete Plant Enzymes is a high potency, full spectrum digestive aid in easy-to-swallow gelatin capsules. It features more total Protease, Amylase (derived from Fungal invertase - *mold*) and Lipase activity than other leading brands, providing maximum results! It also contains L-Acidophilus in an herbal base of Ginger, Fenugreek and peppermint.

**Directions:**

Take one (1) capsule, twice a day with your two largest meals. All the enzymes are from a vegetable source known to aid protein, carbohydrate and fat digestion.

**Ingredients:**

Each gelatin capsule contains a full spectrum of plant enzymes:  
 Protease Activity..... 150,000 units  
 Amylase .....15,000 units  
 Lipase ..... 1,500 units  
 Lactase .....150 units  
 Invertase .....100 units  
 Cellulase..... 15 units  
 Betaine Hydrochloride..... 113.25 mg  
 Probiotic L-Acidophilus .....20 mg  
 In a herbal base of ginger, fenugreek and peppermint.
