Grape Seed Extract: Available in 60 Caps

Product benefits by category:

- GOLD** Antioxidant.
- SILVER** General Prevention.
- BRONZE** Anti-aging, Athletic Performance.

As one of nature's most potent antioxidants Grape Seed Extract helps reduce and prevent free radical damage in the body. Its antioxidant properties are believed to help slow the aging process and reduce the risk of degenerative diseases. Grape Seed extract contains gallic ester, the most potent free-radical scavenger. Health professionals recommend it as an important anti-aging supplement.

Directions:

As a dietary supplement, take 2 capsules per day or as directed by a professional. Contains no artificial preservatives, colours, dairy, sweeteners, starch, wheat or yeast.

Ingredients:

Each gelatin capsule contains:
 Grape Seed extract..... 60mg
 (95% Proanthocyanidins)
 Grape Seed extract is an excellent source of proanthocyanidin complexes or PCO's.
Excipients:
 Rice Flour Powder and vegetable based Magnesium Stearate.
